FIELD NOTES
OF THE
DEPENDENT RESURVEY AND CORRECTIVE DEPENDENT RESURVEY

OF PORTIONS OF THE SUBDIVISIONAL LINES,

THE SUBDIVISION OF SECTION 28,

AND

A METES-AND-BOUNDS SURVEY,

IN

TOWNSHIP 18 SOUTH, RANGE 21 EAST

Of the Gila and Salt River Meridian,
In the State of Arizona

EXECUTED BY

Stephen K. Hansen

Cadastral Surveyor

Under Special Instructions dated November 19, 1997, approved November 19, 1997, which provided for the surveys included under Group Number 821, and assignment instructions dated November 19, 1997.

Survey Commenced December 2, 1997

Survey Completed December 11, 1997

Metes-and-Bounds Survey

pp. 8-11
pp. 12-15

T. 18 S., R. 21 E., Gila and Salt River Meridian, Arizona

CHAINS

The following field notes describe the dependent resurvey and corrective dependent resurvey of portions of the subdivisional lines, the subdivision of section 28, and a metes-and-bounds survey, in Township 18 South, Range 21 East, Gila and Salt River Meridian, Arizona.

Theo. F. White surveyed the subdivisional lines in 1881. William P. Carpender and Stephen K. Hansen dependently resurveyed a portion of the subdivisional lines in 1987-1993.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated November 19, 1997, for Group No. 821, Arizona.

Preliminary to the resurvey, the lines of the previous survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions and distances of all lines were determined by use of Global Positioning System Trimble 4400 real time kinematic survey system, and refer to the true meridian.

The geographic position of the corner of sections 27, 28, 33 and 34, as determined from a relative global positioning vector made to U.S. Coast and Geodetic Survey Triangulation station "CURTIS 1946", with published latitude of 31°51'04.9622" N., and longitude of 110°11'56.7164" W., NAD 83(1992), is as follows:

Latitude: 31°49'56.92" N. Longitude: 110°11'48.14" W. NAD 83

The mean magnetic declination of 11 1/2°, was derived from the U.S. Geological Survey computer program MAGPOINT, utilizing the Regional Magnetic Field Model for Epoch 1995 for the dates of survey.

Dependent Resurvey of a Portion of the Subdivisional Lines,
T. 18 S., R. 21 E., Gila and Salt River Meridian, Arizona

<p>CHAINS</p>	<p style="text-align: center;">Restoring the survey executed by Theo. F. White in 1881</p> <hr/> <p>Beginning at the cor. of secs. 27, 28, 33 and 34, monumented with a stainless steel post, 2 1/2 ins. diam., firmly set, 8 ins. below the surface of ground, with brass cap mkd. T18S R21E S28 S27 S33 S34 1988. Add the marks 1997 to the brass cap.</p> <p>from which the 1987-93 reference monument</p> <p style="padding-left: 40px;">An aluminum post, 3/4 in. diam., firmly set, projecting 12 ins. above ground, bears S. 45°58' W., 41.4 ft. dist., with aluminum cap mkd. Metes-and-Bounds Survey,
T. 18 S., R. 21 E., Gila and Salt River Meridian, Arizona

CHAINS

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam.,
22 ins. in the ground, with brass cap mkd.

T18S R21E
AP9
S29 S28
1997

Deposit a magnet in a 1 x 1 x 2 5/8 ins. white plastic case
beneath the stainless steel post.

Set a steel fence post alongside the stainless steel post.

Cor. is located in a cultivated field.

GENERAL DESCRIPTION

The area of the survey is about 2 miles southerly from Saint
David, Arizona. Access is by way of Arizona Highway 80.

Elevation is about 3600 to 3900 feet above sea level.

Vegetation consists of mesquite, creosote, and catclaw, as well
as various grasses in the lower and wetter areas.

Principal uses of the area are cattle grazing, farming, and
recreational activities.

CERTIFICATE OF SURVEY

I, Stephen K. Hansen, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 19th day of November, 1997, I have dependently resurveyed and corrected portions of the subdivisional lines, subdivided section 28, and performed a metes-and-bounds survey in Township 18 South, Range 21 East, of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

1/28/98

(Date)

Stephen K. Hansen

(Cadastral Surveyor)

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Arizona State Office
Phoenix, Arizona

The foregoing field notes of the dependent resurvey and corrective dependent resurvey of portions of the subdivisional lines, the subdivision of section 28, and a metes-and-bounds survey in Township 18 South, Range 21 East, Gila and Salt River Meridian, Arizona, executed by Stephen K. Hansen, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

JAN 29 1998

(Date)

Fenny D. Ravnikar

(Chief Cadastral Surveyor of Arizona)

CERTIFICATE OF TRANSCRIPT

I CERTIFY that the foregoing transcript of the field notes of the above-described surveys in T. 18 S., R. 21 E., Gila and Salt River Meridian, Arizona, is a true copy of the original field notes.

(Date)

(Chief Cadastral Surveyor of Arizona)
